#### ITEM 8.01. OTHER EVENTS.

##### **Inability to file Annual Report on Form 10-K for the year ended December 31, 2019 by the original deadline of March 30, 2020 due to circumstances related to COVID-19.**

CBAK Energy Technology, Inc. (the “Company”) will be unable to file its 2019 Annual Report on Form 10-K (the “10-K”) by March 30, 2020 due to circumstances related to COVID-19. All of the Company’s operating subsidiaries, employees and production facilities are located in China which has been affected by the outbreak of COVID-19 since December 2019. From January to February 2020, the Chinese government imposed nationwide travel restrictions and quarantine control, and we largely suspended our operations during this period. As a result, the Company’s finance department will be unable to complete the preparation of the Company’s consolidated financial statements and the 10-K without undue hardship and expense to the Company until after March 30, 2020.

The Company is relying on the SEC order under Section 36 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), dated March 25, 2020 (Release No. 34-88465) to extend the due date for the filing of the 10-K until May 14, 2020 (45 days after the original due date). The Company will work diligently to comply with such requirement and, at this time, management believes that it will need the entire available extension period.

The Company is supplementing the risk factors previously disclosed in the Company’s Annual Report on Form 10-K for the year ended December 31, 2018 and its subsequent Quarterly Reports on Form 10-Q with the following risk factor:

##### ***Our business operations have been and may continue to be materially and adversely affected by the outbreak of the coronavirus (COVID-19).***

An outbreak of respiratory illness caused by COVID-19 emerged in late 2019 and has spread within the PRC and globally. The coronavirus is considered to be highly contagious and poses a serious public health threat. The World Health Organization labeled the coronavirus a pandemic on March 11, 2020, given its threat beyond a public health emergency of international concern the organization had declared on January 30, 2020.

Any outbreak of health epidemics or other outbreaks of diseases in the PRC or elsewhere in the world may materially and adversely affect the global economy, our markets and our business. In the first quarter of 2020, the COVID-19 outbreak has caused disruptions in our manufacturing operations and temporary closure of our offices. A prolonged disruption or any further unforeseen delay in the procurement, manufacturing and assembly process within our production facilities could continue to result in delays in the shipment of our products to customers, increased costs and reduced revenue.

As the coronavirus epidemic expands globally, the world economy is suffering a noticeable slowdown. If this outbreak persists, commercial activities throughout the world could be curtailed with decreased consumer spending, business operation disruptions, interrupted supply chain, difficulties in travel, and reduced workforces. The duration and intensity of disruptions resulting from the coronavirus outbreak is uncertain. It is unclear as to when the outbreak will be contained, and we also cannot predict if the impact will be short-lived or long-lasting. The extent to which the coronavirus impacts our financial results will depend on its future developments. If the outbreak of the coronavirus is not effectively controlled in a short period of time, our business operation and financial condition may be materially and adversely affected as a result of any slowdown in economic growth, operation disruptions or other factors that we cannot predict.

##### *Forward-Looking Statements*

Statements in this Current Report on Form 8-K are “forward-looking statements” as the term is defined under applicable securities laws. These statements include the anticipated timing of the filing of Company’s 10-K under the Exchange Act, the expected impact of the COVID-19 outbreak on the Company’s financial reporting capabilities and its operations generally, and the potential adverse effects of such pandemic on the overall business environment. These and other forward-looking statements are subject to risks, uncertainties and other factors that could cause actual results to differ materially from those statements. Such risks and uncertainties are, in many instances, beyond the Company’s control. Forward-looking statements, which are presented as of the date of this filing, will not be updated to reflect events or circumstances after the date of this report except as required by law.

**Item 5.02 Departure of Directors or Principal Officers; Election of Directors; Appointment of Principal Officers**

On March 19, 2020, Guangming Fang resigned as a director of Planet Green Holdings Corp. (the “Company,” “we,” “our,” “us” or “ours”) and his positions at the independent committees of the board of directors of the Company (the “Board”). Mr. Fang’s resignation was for personal reasons and was not due to any disagreement with the Company.

On March 19, 2020, the Board appointed Yang Cao to serve as a member of the Board and a member of each of the three independent committees of the Board (i.e., the audit committee, compensation committee and nominating and corporate governance committee) and as chairman of the compensation committee of the Board, effective immediately.

Ms. Cao, age 28, has been practicing commercial law as an attorney with Hubei Kaicheng Law Office since December 2019. Prior to that, she served as a legal counsel to Xianning High-Tech Industrial Zone, a municipal government authority providing infrastructure and resources to high-tech companies, from November 2016 to November 2019. From October 2015 to November 2016, Ms. Cao worked as a compliance officer at Qingdao Inter-Credit Group Wuhan Branch, a business consulting company. Ms. Cao received her LL.B. degree from Hankou College and an LL.M. degree from Central China Normal University.

There are no family relationships between Ms. Cao and any director, executive officer, or person nominated or chosen by the Company to become an executive officer of the Company. There are no transactions between the Company and Ms. Cao that are subject to disclosure under Item 404(a) of Regulation S-K.

**Item 8.01 Other Events.**

The Company is unable to meet the filing deadline for the filing of its Annual Report on Form 10-K (the “2019 Annual Report”) due to circumstances related to COVID-19. The primary operations and businesses of the Company are conducted in Hubei province, which is the epicenter of the COVID-19 pandemic, and Guangdong province in China. Since January 2020, both provinces have been under strict quarantine control and travel has been severely restricted. In addition, a large number of the Company’s employees have been or are in mandatory self-quarantine and the entire business operations of the Company has been restricted since January 2020. As a result, the Company’s finance team will be unable to complete the preparation of the Company’s consolidated financial statements and the 2019 Annual Report until after March 30, 2020. The Company is working closely with the local government agencies to restore its local operations back to normal.

The Company is relying on SEC Release No. 34-88465 dated March 25, 2020 to delay the filing of the 2019 Annual Report and expects to file the 2019 Annual Report no later than May 14, 2020 (which is 45 days from the original filing deadline of March 30, 2020). The Company will work diligently to comply with such requirements.

Supplemental Risk Factor

In light of recent developments relating to the COVID-19 pandemic, the Company is supplementing in this Current Report on Form 8-K with the following risk factor:

***Our business operations have been and may continue to be materially and adversely affected by the outbreak of the coronavirus disease (COVID-19).***

An outbreak of respiratory illness caused by COVID-19 emerged in Wuhan city, Hubei province, PRC, in which province a part of the Company’s primary operations and businesses are located, in late 2019 and has been expanding within the PRC, including Guangdong province, where the remaining part of the Company’s operations and businesses take place, and globally. The new strain of COVID-19 is considered to be highly contagious and poses a serious public health threat. On January 23, 2020, the PRC government announced the lockdown of Wuhan city in an attempt to quarantine the city. Since then, other measures including travel restrictions have been imposed in other major cities in the PRC and throughout the world in an effort to contain the COVID-19 outbreak. The World Health Organization (the “WHO”) is closely monitoring and evaluating the situation. On March 11, 2020, the WHO declared the outbreak of COVID-19 a pandemic, expanding its assessment of the threat beyond the global health emergency it had announced in January.

Any outbreak of such epidemic illness or other adverse public health developments in the PRC or elsewhere in the world may materially and adversely affect the global economy, our markets and our business. In the first quarter of 2020, the COVID-19 outbreak has caused disruptions in our manufacturing operations, which have resulted in delays in the shipment of products to certain of our customers. A prolonged disruption or any further unforeseen delay in our operations of the manufacturing, delivery and assembly process within any of our production facilities could continue to result in delays in the shipment of products to our customers, increased costs and reduced revenue.

We cannot foresee whether the outbreak of COVID-19 will be effectively contained, nor can we predict the severity and duration of its impact. If the outbreak of COVID-19 is not effectively and timely controlled, our business operations and financial condition may be materially and adversely affected as a result of the deteriorating market outlook, the slowdown in regional and national economic growth, weakened liquidity and financial condition of our customers or other factors that we cannot foresee. Any of these factors and other factors beyond our control could have an adverse effect on the overall business environment, cause uncertainties in the regions where we conduct business, cause our business to suffer in ways that we cannot predict and materially and adversely impact our business, financial condition and results of operations.

#### Forward-Looking Statements

Certain of the statements contained in this Current Report on Form 8-K should be considered forward-looking statements within the meaning of the Securities Act of 1933, as amended, the Securities Exchange Act of 1934, as amended, and the Private Securities Litigation Reform Act of 1995. These forward-looking statements may be identified by words such as “may,” “will,” “expect,” “intend,” “anticipate,” “believe,” “estimate,” “plan,” “project,” “could,” “should,” “would,” “continue,” “seek,” “target,” “guidance,” “outlook,” “if current trends continue,” “optimistic,” “forecast” and other similar words. Such statements include, but are not limited to, statements about the Company’s plans, objectives, expectations, intentions, estimates and strategies for the future, and other statements that are not historical facts. These forward-looking statements are based on the Company’s current objectives, beliefs and expectations, and they are subject to significant risks and uncertainties that may cause actual results and financial position and timing of certain events to differ materially from the information in the forward-looking statements. There may be other factors of which the Company is not currently aware that may affect matters discussed in the forward-looking statements and may also cause actual results to differ materially from those discussed. In particular, the consequences of the COVID-19 outbreak to economic conditions and the industry in general and the financial position and operating results of the Company in particular have been material, are changing rapidly, and cannot be predicted. The Company does not assume any obligation to publicly update or supplement any forward-looking statement to reflect actual results, changes in assumptions or changes in other factors affecting these forward-looking statements other than as required by law. Any forward-looking statements speak only as of the date hereof or as of the dates indicated in the statement.

**Item 8.01 Other Events.**

Future FinTech Group, Inc. (the “Company”) will be relying on the Securities and Exchange Commission’s Order under Section 36 of the Securities Exchange Act of 1934 Modifying Exemptions From the Reporting and Proxy Delivery Requirements for Public Companies dated March 25, 2020 (Release No. 34-88465) (the “Order”) to delay the filing of its Annual Report on Form 10-K for the year ended December 31, 2019 (the “Report”) due to circumstances related to COVID-19.

In December 2019, a novel strain of coronavirus was reported to have surfaced in Wuhan, China, which has and is continuing to spread throughout China and other parts of the world, including the United States. On January 30, 2020, the World Health Organization declared the outbreak of the coronavirus disease (COVID-19) a “Public Health Emergency of International Concern,” and on March 11, 2020, the World Health Organization characterized the outbreak as a “pandemic”. Xi’an City, where our headquarters are located, is one of the most affected areas in China. The Company has been following the orders of local government and health authorities to minimize exposure risk for its employees, including the closures of its offices and having employees work remotely from January of 2020 until recently. As a result, the Company’s books and records were not easily accessible, resulting in a delay in the preparation, audit and completion of the Company’s financial statements for the Report. The Company expects to file the Report no later than May 14, 2020 (which is 45 days from the Report’s original filing deadline of March 30, 2020).

In light of the current COVID-19 pandemic, the Company will be including the following Risk Factor in its Report:

***An occurrence of an uncontrollable event such as the COVID-19 pandemic may negatively affect our operations and financial results.***

In recent years, there have been outbreaks of epidemics in various countries, including China. Recently, there was an outbreak of a novel strain of coronavirus (COVID-19) in China, which has spread rapidly to many parts of the world, including the U.S. In March 2020, the World Health Organization declared COVID-19 a pandemic. The epidemic has resulted in quarantines, travel restrictions, and the temporary closure of office buildings and facilities in China and in the U.S.

Substantially all of our revenues are generated in China. Consequently, our results of operations will likely be adversely, and may be materially, affected, to the extent that COVID-19 or any other epidemic harms the Chinese and global economy. Any potential impact to our results will depend on, to a large extent, future developments and new information that may emerge regarding the duration and severity of COVID-19 and the actions taken by government authorities and other entities to contain COVID-19 or treat its impact, almost all of which are beyond our control. Potential impacts include, but are not limited to, the following:

- temporary closure of offices, travel restrictions or suspension of transportation of our products to our customers and our suppliers have been negatively affected, and could continue to be negatively affected, on their ability to supply our demands;
- our customers that are negatively impacted by the outbreak of COVID-19 may reduce their budgets to purchase our products and services, which may materially adversely impact our revenue;
- We may have to provide significant sales incentives to our customers in response to the outbreak, which may in turn materially adversely affect our financial condition and operating results;
- the business operations of our customers and suppliers have been and could continue to be negatively impacted by the outbreak, result in loss of customers or disruption of our services, which may in turn materially adversely affect our financial condition and operating results;
- any disruption of our supply chain, logistics providers or customers could adversely impact our business and results of operations, including causing our suppliers to cease manufacturing products for a period of time or materially delay delivery to customers, which may also lead to loss of customers, as well as reputational, competitive and business harm to us;
- many of our customers, distributors, suppliers and other partners are individuals and small and medium-sized enterprises (SMEs), which may not have strong cash flows or be well capitalized, and may be vulnerable to an epidemic outbreak and slowing macroeconomic conditions. If the SMEs that we work with cannot weather COVID-19 and the resulting economic impact, or cannot resume business as usual after a prolonged outbreak, our revenues and business operations may be materially and adversely impacted;
- the global stock markets have experienced, and may continue to experience, significant decline from the COVID-19 outbreak, which could materially adversely affect our stock price; and

Because of the uncertainty surrounding the COVID-19 outbreak, the financial impact related to the outbreak of and response to the coronavirus cannot be reasonably estimated at this time, but our results for the first quarter and full year of 2020 may be adversely affected.

In general, our business could be adversely affected by the effects of epidemics, including, but not limited to, COVID-19, avian influenza, severe acute respiratory syndrome (SARS), the influenza A virus, the Ebola virus, or other outbreaks. In response to an epidemic or other outbreaks, government and other organizations may adopt regulations and policies that could lead to severe disruption to our daily operations, including temporary closure of our offices and other facilities. These severe conditions may cause us and/or our partners to make internal adjustments, including but not limited to, temporarily closing down business, limiting business hours, and setting restrictions on travel and/or visits with clients and partners for a prolonged period of time. Various impacts arising from severe conditions may cause business disruption, resulting in material, adverse effects to our financial condition and results of operations.
