SUBSEQUENT EVENTS

In December 2019, a novel strain of **coronavirus** ("**COVID-19**") was reported in Wuhan, China. The World Health Organization has declared **COVID-19** to constitute a "Public Health Emergency of International Concern." On January 30, 2020, the U.S. Department of State issued a Level 4 "do not travel" advisory for China. The U.S. government has also implemented enhanced screenings, quarantine requirements and travel restrictions in connection with the **COVID-19** outbreak. The Company has suspended its flights between the United States and each of Beijing, Chengdu, Shanghai and Hong Kong through April 24, 2020. These routes represented approximately 5% of the Company's 2020 planned capacity and the Company's other trans-Pacific routes represented an additional 10% of the Company's 2020 planned capacity. As of the date of this report, the Company is experiencing an approximately 100% decline in near-term demand to China and an approximately 75% decline in near-term demand on the rest of the Company's trans-Pacific routes. The extent of the impact of the **COVID-19** on the Company's operational and financial performance will depend on future developments, including the duration and spread of the outbreak and related travel advisories and restrictions and the impact of the **COVID-19** on overall demand for air travel, all of which are highly uncertain and cannot be predicted. If traffic on the Company's trans-Pacific routes were to remain at these levels for an extended period, and/or routes in other parts of the Company's network begin to see significant declines in demand, our results of operations for full year 2020 may be materially adversely affected.

In February 2020, the Company announced that they had entered into a Third Amended and Restated Co-Branded Card Marketing Services Agreement (as amended from time to time, the "Agreement") with Chase. The Agreement, which replaces the Co-Brand Agreement, also extends the term into 2029 and modifies certain other terms. We will continue to account for the considerations received under the Agreement to the separately identifiable performance obligations using the estimated selling price allocation methodology explained in Note 1(d). In connection with the Agreement the Company, entered into an Amended and Restated Co-Branded Card Strategic Alliance Agreement with Visa U.S.A. Inc.

Subsequent Event

Starting in February 2020, we temporarily suspended flights between the U.S. and China as the result of an outbreak of a novel **coronavirus** originating in Wuhan, Hubei Province, China. We have suspended flights between the U.S. and China through April 30, will continue to monitor the situation closely and may make additional adjustments. Given the uncertainty about the situation, we currently cannot estimate the impact to our financial statements. Flights to and from China have historically represented less than 2% of our revenue. We are currently exploring options for the redeployment of aircraft to other routes within our diverse global network.

17. SUBSEQUENT EVENT

In December 2019, a novel strain of **coronavirus** was reported to have surfaced in Wuhan, China. The spread of this virus has caused business disruption beginning in January 2020, including traffic declines and the closure of the majority of stores on mainland China. While the business disruption is currently expected to be temporary, there is uncertainty around the duration of these disruptions or the possibility of other effects on the business. However, the disruption is expected to have a material adverse impact on the Company's business, financial condition, and results of operations.
